

# CEW C O

## Goal

The overall goal of \_\_\_\_\_ is to **actively involve children in their own learning**—emotionally, physically \_\_\_\_\_ cognitively.

## What

**Eight interdisciplinary, content-rich projects** build upon children's knowledge and increase in complexity. Each project supports children's **common understanding** of a topic and **nurtures their innate sense of curiosity** and discovery about their world.

## Why

\_\_\_\_\_ is based on principles of **project-based inquiry** and driven by evidence-based practices that build teacher capacity and support successful implementation. \_\_\_\_\_ is fully aligned with **Maryland's Early Learning Standards** and **Early Learning Assessment**.

## How

**Children**
